CAREER OBJECTIVE

Results-driven MERN Stack Developer with hands-on experience in building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Passionate about developing clean, maintainable, and user-friendly applications while continuously learning modern web technologies

TECHNICAL SKILLS

Frontend	JavaScript(ES6+), React.js, Axios, RTK Query (Redux), Bootstrap, Tailwind CSS
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication
Database	MySQL, MongoDB, PostgreSQL
Tools and Deployment	Postman, Jest, Vercel, Render, Git, GitHub, CI/CD
Additional Skills	MS Office, English Type Writing, Photoshop, Canva, Drawing
Soft Skills	Time Management, Communication, Decision Making, Problem Solving

Professional Experience

MERN Stack Developer

Techno Tackle Software Solutions Pvt. Ltd

Coimbatore, Tamil Nadu

Dec 2025 – Present

- Developed 2+ enterprise web applications (PMS & DSMS) using React.js, Node.js, Express.js, MongoDB, Axios, and RTK Query, delivering responsive interfaces for daily business operations.
 - Built and integrated 20+ RESTful API endpoints for authentication, project management, timesheets, and digital document workflows, improving frontend-backend communication.
 - Implemented secure JWT Authentication, Role-Based Access Control (RBAC), and complete CRUD functionality, enabling secure access for multiple user roles.
 - Optimized React components, API calls, and state management using RTK Query, reducing unnecessary API requests and improving application responsiveness.
 - Fixed 40+ UI/UX issues and application bugs across PMS and DSMS modules, improving stability and user experience.
 - Collaborated with frontend and backend developers using Git, GitHub, Agile, and code reviews, contributing to sprint-based feature delivery.
-

PROJECTS

Title 1 : Music Recommendation System Using Facial Emotion :

A real-time music recommendation system that uses a webcam to detect the user's facial expression (happy, sad, angry) and suggests songs accordingly. Integrated machine learning-based facial emotion recognition with a music API to generate emotion-matched playlists. Tech stack :Python, TensorFlow, CNN, HTML, CSS,JS and APIs

Title 2 : DSMS (Digital Signature Management System)

Developed a MERN Stack-based Digital Signature Management System (DSMS) for secure document management, digital signing, and document tracking.
